Overview:

The FX Portfolios a Forex Strategy Portfolio offered through the Share Prices Managed Account Service.

Your Account will consist of a portfolio of margin spot Forex currency pairs, which is actively managed by Michael Walker. Michael Walker is the Program Manager, appointed by the Responsible Entity.

Program Manager profile:

Michael Walker has Over 15 years Trading experience.

Michael holds several qualifications including:

- RG146 Foreign Exchange, Derivatives, Securities and Superannuation
- Diploma of Financial Services
- Graduate Diploma in Management
- RG146 Personal Advice

Investment Objectives:

The investment objective of the FX Portfolio is to achieve an average of 2% per month before taking into account portfolio fees and expenses (actual or nominal).

Investment Strategy:

The Swing Strategy is designed to generate consistent returns with lower volatility in the long term. Being an assertive strategy, the Swing Strategy holds a heavy weighting on currency and may underperform in some months. The swing strategy opens a number trades each month which have a good risk versus reward ratio. The strategy has exposure to currency and can profit from rising and falling markets.

There is no guarantee that every trade will be profitable, and this strategy can include high volumes of trading, the commission and transaction costs associated with such trading may be high.

Investment Process:

Entry signals are generated from technical analysis (chart patterns) and trade size is based on market volatility. The objective is to capture movements in the market trading specific currencies to target a managed range of volatility, using leverage. Stop losses will be placed on each trade as required

The FX Portfolio is designed for investors who:

- Are seeking short to medium term growth by investing in the Foreign Exchange
- Have a short to medium term investment horizon of at least six months to two years and accept that returns can be volatile and that returns may even be negative.

Risk

All investments have an inherent level of risk. You should read the section headed "Significant risks" in Section 2 of the Product Disclosure Statement Part A.

Performance Returns

Current performance data for the FX Portfolio can be obtained via <https://australianmanagedfunds.com.au>

Gearing/Leverage

If transaction costs are incurred in relation to more than one investor's account, they will be allocated *pro rata* across all affected accounts. The Service is expecting to take advantage of competitive brokerage rates.

Expense recovery

We are entitled to be reimbursed from the Service for all expenses which we properly incur or become liable for in connection with administering the Service including audit, legal and tax consulting fees. In addition, any compliance committee costs, expenses and liabilities can be paid or reimbursed from the Service.

To the extent that costs, expenses and charges are attributable to you they will be deducted from our Account Management Fee until otherwise notified.

If costs, expenses and charges do become payable by you, they will be allocated to your Account in proportion to your Account value expressed as a percentage of the total value of clients' Accounts in the FX Portfolio with any appropriate adjustment for the timing of incurring the costs, the timing of contributions and withdrawals and any special features of the particular costs.

We can also invoice you for the amount, or any part of the amount, allocated to you and this is a debt due to us even if there are insufficient funds in your Account to pay the debt.

You also indemnify us against any liability we may incur as a consequence of acting on your instructions.

Can fees and charges change?

All fees and charges can change.

The Constitution sets the fees we are entitled to charge. We do not envisage that we will ever be charging uncompetitive fees.

The fees applicable to your investment are set out in this Part B PDS. Although we have the right to change our fee structure, we have no present intention to do so. If we do change our fees and charges, we will provide you with a minimum of 30 days' notice of the increase.
